UX.

PROFILE SUMMARY

Passionate and results-driven Full Stack Developer (MERN) with hands-on experience in building responsive and scalable web applications. Proficient in MongoDB, Express.js, React.js, and Node.js, with a strong grasp of REST APIs, Git, and Agile methodologies. Eager to contribute to high-impact development teams and continuously grow technical skills in real-world projects.

PROJECTS

Devtronics - E-commerce Website

- Developed a full-stack e-commerce platform using React.js, Node.js, Express.js, and MongoDB
- Created a responsive UI and integrated dynamic product management features with secure authentication

Task Management System

- Designed and developed a full-stack task management web app using React, Node.js, and MongoDB
- Implemented JWT-based authentication and role-based access
- Built intuitive UI and optimized CRUD operations via REST APIs

Starbucks Slider Animation

- Developed an image slider application using React.js with admin capabilities to upload and manage content

2048 Game Clone

- Built a browser-based 2048 puzzle game using JavaScript, HTML, and CSS
- Implemented game logic and animations from scratch
