EXPERIENCE

Intern – Regex Software Services

Full Stack Web Development

June 2023 – September 2023

- Developed dynamic user interfaces and implemented backend APIs utilizing the MERN stack to enhance application functionality.
- Collaborated with a team to design, develop, and deploy web applications, ensuring high-quality code and adherence to best practices.

PROFILE SUMMARY

Creative Full Stack MERN Developer with a strong foundation in JavaScript, React.js, and web development technologies. Proficient in building responsive, high-performance web applications while focusing on clean code and seamless user experiences. Eager to apply technical skills and a collaborative mindset in a challenging entry-level or internship role in web development.

PROJECTS

Devtronics - E-commerce Website

- Built a full-stack e-commerce platform using React.js, Node.js, Express, and MongoDB.
- Developed a responsive UI and implemented dynamic product management features, resulting in improved user engagement and sales tracking.

Task Management System

- Developed a web application for task management that features user authentication, task filtering, and deadline tracking using React.js and Node.js.
- Enhanced user productivity by providing an intuitive interface for task organization.

Starbucks Slider Animation

- Created a modern homepage slider for Starbucks using HTML, CSS, and JavaScript.
- Focused on smooth animations and user experience, showcasing the ability to enhance web aesthetics.

2048 Game Clone

- Recreated the classic 2048 puzzle game using JavaScript, HTML, and CSS with a score tracking feature.
- Demonstrated skills in game logic and front-end development through interactive design.
- Enhanced user experience with smooth CSS animations and visual feedback for tile movements and merges.
